

WISAblock

WISAblock Rebar Anti Impalement System

WISAblock is a **high visibility anti-impalement** device which outperforms standard mushroom caps and safety strips.

Light weight and **easy to install**, WISAblock units **cannot be knocked or blown off** rebar meaning there is no need to reinstall. One WISAblock unit **fits rebar sizes from 10mm - 32mm** and the unique design ensures WISAblock "grips" to rebar, further increasing security.

Mushroom caps can only provide warnings of a potential hazard; WISAblock has been **tried and tested** to reduce the likelihood of impalement. WISAblock can also be used to create a **handrail system** which fits standard 4x2 timber and also allows for wider spans.

With **maximum spacing at 1.5m**, fewer WISAblock units are needed compared to the number of mushroom caps required to cover the same distance, making WISAblock cheaper than traditional methods.

- **Anti impalement**
- **High visibility**
- **Light weight**
- **No reinstalling**
- **Cheaper than traditional methods**
- **100% Recyclable**
- **Out performs traditional methods**
- **Maximum spacing at 1.5m**
- **Fits bars 10mm-32mm**
- **Creates handrail system**

QUALITY ASSURANCE

Products are manufactured under quality assured schemes.

Inform UK Ltd products are guaranteed against defective materials and manufacture. Products are sold subject to the Inform UK Ltd Terms and Conditions of Sale, copies of which are available on request. Inform UK Ltd endeavours to ensure that the above data and any further advice is correct, however Inform UK Ltd cannot accept liability for the use to which products are put or in the way in which they are used. All recommendations stated by the company are made in good faith. Recommendations so no over-ride the basic obligation of the user to satisfy themselves at all times as to suitability of the product for their particular application.
