

## POLYTHENE

### Damp Proof Membrane

Supplied in 4 metre widths (folded) for use as a damp proof membrane. Manufactured to BBA Standards.

Code	Thickness mm	Size Sq. metres	Pack
POLY 5	125	200.0	Roll
POLY 10	250	100.0	Roll
POLY 12	300	100.0	Roll
POLY 20	500	50.0	Roll

### Polythene Sheeting

An economical general purpose sheet for a variety of site uses. Supplied in 4 metre widths (folded).

Code	Grade	Size Sq. metres	Pack
BFM	Medium	200.0	Roll
BFH	Heavy	100.0	Roll

## CONCRETE SPACERS

### Single Cover

A flat based single cover concrete spacer block giving maximum stability in horizontal applications.

Code	Cover mm	Pack Qty
CB 20	20	500
CB 25	25	500
CB 30	30	250
CB 35	35	250
CB 40	40	250
CB 50	50	250
CB 60	60	200
CB 75	75	100

### Double/Triple Cover

Used for supporting heavy duty reinforcement, vertical and horizontal. Double cover spacers provide a flat base for use on membranes. Triple cover spacers give minimum contact with formwork and can be wired, to space vertical reinforcement.

Code	Cover mm	Pack Qty
CB 23	25 & 30	500
CB 34	30 & 40	250
CB 345	35, 45 & 50	200
CB 45	40 & 50	200
CB 56	50 & 60	100
CB 657	65 & 70	50
CB 345	35, 40 & 50	200

### Mesh Blocks

A heavy duty spacer with a large base. Ideal for spacing fabric and bar off soft blindings and membranes.

Code	Cover mm	Pack Qty
MB 4050	40 & 50	100

## Square Bar Spacers

An ideal way of supporting the large reinforcement of heavy duty slabs. Supplied in 1 metre lengths.

Code	Cover	Length
SB 30	30mm	Metre
SB 40	40mm	Metre
SB 50	50mm	Metre
SB 60	60mm	Metre
SB 75	75mm	Metre
SB 100	100mm	Metre

## PLASTIC SPACERS

### Plastic Meshfix Spacer

A spacer with a large base, designed to support reinforcement without puncturing membranes. For rebar diameters 6mm to 20mm.

Meshfix spacers with gripper head also available.

Code	Cover mm	Pack Qty
MF 23	25 & 30	250
MF 45	40 & 50	200
MF 67	65 & 75	200
MF 910	90 & 100	100

### Continuous Plastic Spacer

An extremely versatile and stable plastic spacer for the support of reinforcement in horizontal and vertical applications. It is easily and quickly positioned with no wiring required. Ideal for use on hollow ribbed decks. Can easily be cut or sawn.

Code	Cover mm	Length m	Pack Metre
T 15	15	2.50	100
T 20	20	2.50	100
T 25	25	2.50	100
T 30	30	2.50	50
T 35	35	2.50	50
T 40	40	2.50	50
T 50	50	2.50	50

### Plastic Wheel Spacer

An economical and popular general purpose spacer providing multi-directional cover mainly to wall reinforcements.

The wheels have a small bearing area onto the shutter thus reducing the variable footprint on the finished concrete surface.

Code	Cover mm	Bar Diameter	Pack Size
WSN2012	20	4-12	1000
WSN2520	25	8-20	500
WSN3020	30	8-20	500
WSN4020	40	8-20	250
WSN5020	50	8-20	250
